

QuickBooks Online Backup

You think Intuit is backing up your QuickBooks. They're not.

Continuous, automatic backup of your QuickBooks Online data. \$20 per month, per company file, managed by Four Winds IT.

Most QuickBooks Online users assume Intuit protects their data the same way Intuit protects the platform. It doesn't. If a disgruntled employee deletes transactions, a bad CSV import corrupts your chart of accounts, your account gets breached, or someone makes a journal entry that cascades into a mess, Intuit's disaster recovery won't help. Their plan restores the platform. Not your books.

STRAIGHT FROM INTUIT'S TERMS OF SERVICE

"You are responsible for any lost or unrecoverable Content. Intuit is not responsible for any of your content that you submit through the Services."

Intuit Terms & Conditions, Section 6.1.1

Continuous Backup

Every change captured automatically as it happens. No schedules to set, no missed days, no gaps.

One-Click Restore

Roll back to any point in time. Restore a single transaction, a customer record, or your entire company file.

Enterprise Security

256-bit AES encryption, SOC 2 compliant, MFA protected. The same standard as our Microsoft 365 backups.

What gets protected

Over 40 QuickBooks objects backed up individually, not as one monolithic file. That means you can restore exactly what you need, down to a single invoice or customer record.

Transactions

- Invoices & estimates
- Sales receipts
- Payments & credit card
- Bills & bill payments
- Deposits & transfers
- Journal entries
- Purchase orders
- Time activity
- Refund receipts
- Credit memos
- Recurring transactions

Lists & Setup

- Chart of accounts
- Customers & vendors
- Employees
- Items & inventory
- Classes & departments
- Payment methods
- Tax codes & agencies
- Terms
- Customer types
- Budgets
- Company currencies

Other Data

- Attachments
- Company info
- User preferences
- Exchange rates
- Entitlements
- Tax classifications
- Journal codes

PRICING

\$20 /month

per QuickBooks Online company file,
billed alongside your existing services.

INCLUDED

- ✓ Unlimited storage & retention
- ✓ Continuous, automated backup
- ✓ Point-in-time restore, any moment
- ✓ Item-level or full company restore
- ✓ Restore into a different QBO file
- ✓ Admin dashboard & audit log

Common questions

Q: Is this different from anything Intuit offers?

A: Yes. Intuit backs up their platform for disaster recovery. They do not guarantee recovery of your specific data from human error, bad imports, or deletions. This is an independent backup of your books.

Q: How do we get restored data back into QuickBooks?

A: One-click restore directly to your QBO account, or export to CSV for manual import. Attachments restore too.

Q: Can we use it for testing or training?

A: Yes. Replicate your real data into a separate QBO account so your team can practice without touching production.
